COMMON OPERATIONAL PICTURE

A first look at LifeRing 5.04
Enhanced Performance with Many New Tools and Functionalities

A quick preview of the strategic Command and Control Center enhancements to our current LifeRing Tactical System, that enables up and down the Chain of Command Communications with well over a 100 Command Center Consoles each capable of displaying in excess of 1,000 Map Symbols. Look for announcement on release the middle of August.

Notify sends message alert based on geo-boundaries. Does not require the device GPS or LifeRing to be active (no drain on battery).

Additional Emergency Contact function allows you to place a content-specific Alert at a specific location on the map.

New MIL STD Tactical Graphics drawing tools.

SPOT, UXO, MEDEVAC Reports allow for content-specific symbols to be placed at a specific location on the map.

Can now attach Audio/Voice and Video to Symbols.

New function allows Paring of Symbols.

New Order of Battle Area shows Command Structure.

New Size designator lets you set MIL STD 2525 Echelon strength to a symbol

Faster, improved maps performance.

Additional NATO Data Links: NATO VECTOR GRAPHICS, ADEM, JCHAT

New Overlays function lets you toggle on/off Tactical Graphics.
