## Coming Soon! Expanded Mil-SDT 2525 US and NATO Graphics.

Our next version of LifeRing, 5.08, will feature an enhanced, easy to use, Tactical Military Graphics map data entry interface. Compatible with both our Thick Client and Web Client versions of LifeRing, the new menu enables selection of Offensive and Defensive Maneuvers, Lines/Areas and Tasks. There are over 30 different shapes to choose from and this is expanded by the ability to style and label the selected graphic.

Works on Thick Client and Web Client systems.
