C.O.P. NEWS
## COMMON OPERATIONAL PICTURE

Coming - World's First Push-to-Talk (PTT) Between Web Clients and Apps

NEW! LifeRing enables seamless data exchange and Push to Talk (PTT) between LifeRing Thick clients and Web clients. This capability enables <u>worldwide</u> LifeRing users to be connected to their LifeRing Server and to: 1. Exchange an encrypted Common Operational Picture (COP), 2. Enter map symbols and attach data to them, 3. Whiteboard, 4. Change map types, etc., and 5. PTT between each other. The PTT functionality is available on our PC and Android App and Web clients. For military users, Interoperability translation, display and forwarding is provided between Link -16, JVMF, CoT, OTH Gold and other data links.

Thick Client Interface   **Web Client Interface**

PTT with all in your Group
or
PTT by Hooking another User for One-to-One Communications
