It Can't Be Real, but it IS! - Smartphone C4ISR with 10,000 Sensor Feeds

Seeing is believing so go to - <https://youtu.be/xkkhoCEKjlw>

AGIS' AWS GovCloud-based, revolutionary, Multi Domain Data Link (MDDL) C4ISR system provides massive sensor processing of unclassified and classified sensor reports into applicable military tactical data link formats. AGIS' C4ISR system then creates a synchronized, integrated, Worldwide COP between U.S. Military Air, Ground and Sea, Five Eyes and NATO forces. The AGIS C4ISR system comes with full Command and Control Operator capabilities. In addition, it provides video and PTT between the networked participants. It works on PCs, Tablets and Smartphones, on the Cloud or as an App.

It is a fully capable C4ISR system, available off the shelf, with a one-year warranty and is low cost. It is ready for you to check out at no cost or obligation - If you don't believe it, just contact us.

LifeRing – Complete, Affordable C4I Everywhere!
