

On 5 October, the Defense Information Systems Agency (DISA) Hosted the AGIS MDDL C4ISR system on their web site.

You can view the actual Defense Systems Information Agency AGIS meeting, and AGIS' presentation and demonstration of our MDDL C4ISR system's ability to provide an integrated synchronized COP between U.S. Air, Ground and Sea C5ISR systems while simultaneously processing 10,000s of sensor reports by going to :

<https://zadar.us/disa/tem/video/TEM-2021-10-05-Advanced-Ground-Information-Systems-MDDL-C4ISR-System.mp4>

You can also view an abbreviated MDDL C4ISR system video in operation by going to:

<https://www.agisinc.com/disa-video/>

You can access the Web-client version of our C4ISR system and interoperate with others that have accessed the Web-client system by going to www.liferingmilitary.com. It is very easy to use and there is built-in integrated video training available for each Operator function. There are normally approximately 2,000+ actual real time sensor reports being received at this website.

We would be pleased to provide you evaluation copies of our C4ISR system App to operate at your leisure. If this is of interest, contact Jason at jahearn@agisinc.com or Cap at beyerm@agisinc.com at 561-744 3213.

LifeRing – Complete, Affordable C4I Everywhere!

To download a Thick Client evaluation copy of LifeRing, go to: www.agisinc.com/download or email us at support@agisinc.com. All other inquiries, please contact Jason A'Hearn jahearn@agisinc.com or Cap Beyer at beyerm@agisinc.com or by phone at 561-744-3213.
